

## Lornham secure new property acquisition & concierge client

Recently a lawyer called to say one of his clients has become stranded in London and requires help with managing his central London flat. The client is an occasional visitor and there was no management in place hence various issues which required immediate attention.

We attended the flat within 24 hours and addressed the problems swiftly with the client being so impressed he has signed a permanent property concierge contract. The client leads a busy lifestyle across multiple continents and requires the flat to be ready for occupation at any time.

Our client relationship grew (quickly!) and a few weeks later we have agreed an acquisition who asked us to find him an investment opportunity.

**Lornham manage a portfolio of properties for overseas homeowners and if you would like to hear more then please contact Dominic Wertheimer**
