

New Building in Little Venice, W9

Lornham have been appointed to manage this beautiful stucco fronted building in Little Venice just moments from the Regents Canal. This further increases our footprint in Maida Vale and came on the back of a recommendation from another building that we manage in the area.

Rupert Wertheimer, Lornham's Director of Property Management comments:

“The owners had heard about our reputation of managing buildings with owner engagement and were keen to appoint Lornham. We look forward to working with them and implementing the plans to enhance the building for the benefit of the leaseholders.”

Lornham manage a substantial portfolio of buildings in Central London and if you would like to hear more about our block management then please contact Rupert Wertheimer.
