

NOV 2023

KIUSYANA WELL PROJECT KENYA

Lornham among other organisation and individuals recently made a donation in support of a Kenya based project and the results are truly wonderful, huge congratulations to David Taylor and the Team.

About the project:

The Source of Hope is a project dedicated to serve the children of Kenya.

One focus for 2023 has been the delivery of the Kiusyana Well project which provides a small town of around 2,500 people with clean water to this very dry area.

Working with the community, Founder Duncan Taylor wanted to drill a well and provide a water point with easy access to the community instead of the long walk to the river. As you can see from the photo's the project was a resounding success, here's to many more!

For further information about upcoming projects and how you can support please contact David at: Info@sourceofhope.uk
