

BEDFORD ROW , WC1

New Instruction Block Management

Introducing Bedford Row, a new addition to the expanding portfolio of the block management team in London, WC1.

Situated in the heart of London's legal district, Bedford Row lies in an exclusive area of Holborn, central London. This Victorian building consists of a basement and four upper levels, including a penthouse and roof terrace on the fifth floor. Notably, there is a vault beneath the pavement on Bedford Row that spans approximately half the width of the site!

Rupert Wertheimer, the Director of Block Management, commented on this recent acquisition, stating, "This building is remarkable; originally used for commercial purposes, it has been transformed into a purely residential block. The quality of the refurbishment is exceptional, and we are thrilled to uphold this standard as we take on the management of Bedford Row."

For inquiries or to reach out to the Block Management team, please contact Rupert Wertheimer using the details provided below.
