London

## LORNHAM TURNS 14

From its founding by Dominic to its growth under Rupert as Director of Block Management, the business has adapted to London's evolving property market.

Initially focused on day-to-day management, it now emphasises strategic planning, governance, and asset protection. The brothers recently reflected on their journey at The Delaunay, acknowledging the core values that guide them.

Dominic & Rupert are hugely grateful to their dedicated teams in London and South Africa, as well as to clients and the community for their ongoing support.
